

## **TELECOM BUSINESS PLANNING AND DESIGN**

### **Samsung's Remote IP Phone can help you:**

- Boost productivity and worker retention
- Avoid maddening rush-hour traffic while reducing harmful emissions
- Stagger work schedules to accommodate individual needs
- Lower your monthly phone and electricity bills
- Trim travel expenses

You can't do all your business from the office anymore you have to plan for telecommuting. Additionally system functionality, reliability and office communications will be directly affected by the installation of the system and type you choose. Proper business planning of your business communication system and associated office wiring starts with the layout of wiring in a rack that meets the business telecom standards of the manufacturer, SIP, VoIP, feature requirements and associated compliant standards. If you are looking for a business phone system in Atlanta, you have found one of the best.

Rottweiler associates are professionals in the installation of Business Class communication systems, voice cabling (interior, exterior or both), data cabling (Cat 5e or higher), fiber cabling (interior, exterior or both) and structured wiring. In our 35 years of service, we have installed and implemented thousands of business telephone systems here in metro Atlanta.

Located locally, Rottweiler makes good economic sense for your business. We provide professionally driven support for your business and are Unrestricted licensed by the State of Georgia to install any type of structured cabling system that will serve as the backbone of their entire communications network and the necessary wiring or fiber that your commercial building or office may need now and in the future.

Pull your money back into your budget with the purchase and support of a Samsung business telephone system by implementing the Rottweiler Business Advantage Choice Rewards. By doing so, you have advantages of strong discounts as well as many other benefits. BACR members receive a life time warranty on all wire installed as BACR members!

## DIAL TONE & INTERNET PROVIDERS

T1, PRI, SIP or copper? Technology changes, features change and pricing. So what is right for you? We assist in navigating through various vendor selections, manage the delivery of your services and negotiate through the various product offerings taking the pain out of your dial tone and Internet service order. The service is free, we save you money by ordering the right product, do not steer you towards one company and are paid by the dial tone company for this assistance to you! We represent several of the leading providers like Nuvox, CBeyond, AT&T, and Time Warner. You may not know that by ordering your dial tone services directly from the dial tone vendor may actually cost you an additional 10-15%. BACR members save an added 3% off all other purchases by ordering service through Rottweiler which is a cost savings towards the purchase of new hardware for the office.

Controlling Telephone Abuse is another issue in the business environment. You know it and it's the 90-10 rule. 10% of your people spend their days on long distance calls to their friends and family. The others work. By knowing who is calling where and how much they are spending on each call is useful in controlling costs. We offer, install and set up Call Accounting Solutions just for your business. The top reasons cost you money... BIG MONEY, and you can prohibit and record this.

## HOT OFF THE PRESS OfficeServ 7200S SYSTEM RELEASE

 In response to the ever evolving office communication system, Samsung released two new systems, the OfficeServ 7030 and OfficeServ 7200S to fill the void to the small business communication needs. The OfficeServ 7200S system takes all the previous investment in an OfficeServ 7100 and allows the business to implement those components into the 7200S, saving the business the investment in the preceding Samsung system. IP, SIP or VoIP technology this platform continues to keep going. A warranty that protects the budget against exposure to expensive system repairs, the system package provides a new Samsung 5-year warranty. This package also qualifies for the BACR Rewards offered to BACR members and special financing options if you are not a BACR member.
